

In the space provided under each question, perform the indicated tasks.

1 Determine what % of the figure is shaded.

2 Determine what % of the figure is shaded.

3 Determine what % of the figure is shaded.

4 Determine what % of the figure is shaded.

5 Determine what % of the figure is shaded.

6 Determine what % of the figure is shaded.

In the space provided under each question, perform the indicated tasks.

Determine what % of the figure is shaded.

Determine what % of the figure is shaded.

Determine what % of the figure is shaded.

Determine what % of the figure is shaded.

Determine what % of the figure is shaded.

Determine what % of the figure is shaded.

In the space provided under each question, perform the indicated tasks.

25% of 600 =

18% of 360 =

6% of 7000 =

13% of 50 =

85% of 920 =

35% of 125 =

75% of 560 =

43% of 850 =

22% of 690 =

50% of 95 =

In the space provided under each question, perform the indicated tasks.

1 500% of 80 =	2 400% of 150 =
3 120% of 60 =	4 1000% of 8 =
5 200% of 150 =	6 150% of 16 =
7 500% of 225 =	8 440% of 500 =
9 105% of 90 =	10 111% of 99 =

In the space provided under each question, perform the indicated tasks.

1 What percent of the whole numbers from 1 to 30 are prime?	What percent of the whole numbers from 1 to 50 are divisible by 5? 2
3 What percent of the whole numbers from 1 to 50 are <u>not</u> divisible by 7?	What percent of the integers from -9 to +10 are divisible by 2? 4
5 What percent of the integers from -9 to +10 are negative?	What percent of the integers from -9 to +10 are divisible by 0? 6
7 What percent of the whole numbers from 1 to 100 are divisible by 53?	What percent of the whole numbers from 1 to 75 are divisible by 25? 8
9 What percent of the fractions found between 0 and 1 are proper?	What percent of the whole numbers between 1 to 40 are multiples of 8? 10

Use the shaded shapes, given in the grid below, to complete the chart at the bottom of the page.

In the space provided under each question, perform the indicated tasks.

1
If 4% = 80, then 30% = _____.

2
If 16% = 96, then 25% = _____.

3
If 50% = 900, then 13% = _____.

4
If 14% = 42, then 90% = _____.

5
If 33% = 198, then 40% = _____.

6
If 14% = 84, then 12.5% = _____.

7
If 150% = 300, then 47% = _____.

8
If 175% = 525, then 100% = _____.

9
If 0.5% = 5, then 87% = _____.

10
If 0.2% = 1.2, then 20% = _____.
